ACTIVITY

Section 8.2
Measuring Ingredients

A Measure of Success

Directions: You will be able to measure ingredients successfully if you know the appropriate measuring tools to use for each ingredient. Imagine that you have the measuring tools listed below. Using only these tools, describe how you would measure the following amounts of ingredients.

Tools Available:

Measuring spoon set: 1/4 tsp., 1/2 tsp., 1 tsp., 1 Tbsp.

Dry measures: 1/4 cup, 1/3 cup, 1/2 cup, 1 cup

How would you measure . . .

1. 3/4 cup of sugar

2. 2/3 cup of fine bread crumbs

3. 3/4 teaspoon vanilla extract

4. 1 1/2 tablespoons of cornstarch

5. 3/4 cups of flour

6. 5/8 cup of cornmeal

7. 7/16 cup of sugar

8. 3/8 tsp. pepper
